Re: General Insurance Company of America bond [redacted] on behalf of Martin Marietta Corporation in favor of the United States in the amount of \$386,000 effective 2/14/80; and, American Casualty Company of Reading, Pennsylvania bond 702 53 94 on behalf of Southwestern Cement Enterprises, Inc. in favor of the United States in the amount of \$386,000 effective 6/9/87; (copy of both documents enclosed).

Dear Mr. Wham:

As you are aware, the cement plant and associated mining and reclamation operations, located, in part, on National Forest System lands near Leamington, Utah, have transferred from Martin Marietta Corporation to Southwestern Cement Enterprises, Inc. However, the Martin Marietta bond has remained in effect pending receipt of a replacement.

This summer we received the above Southwestern bond and recently approved it as coverage for the Leamington operations. We are now in the process of releasing the Martin Marietta bond and are requesting written approval from the Division of Oil, Gas and Mining, State of Utah, to terminate its period of liability. This request is in accordance with the bond's appendix, executed June 27, 1980 (copy enclosed).

We also mention involvement of another Southwestern bond which Lynn Findlay of this office discussed with you recently on the telephone. It is bond number 8068 10 00 with an effective date of 4/11/85, and was intended to be a replacement for the Martin Marietta bond. Your agency received a copy, but we have no record or recollection of that particular bond. Efforts to locate the original bond document have failed but, we learned that Rebsamen Insurance, Little Rock, Arkansas sent it to us about mid-1985. Apparently, it was lost en route and we did not receive it. Also, Bob Watkins of Rebsamen informed us that because of the circumstances, representatives of the Federal Insurance Company (the involved surety), are considering it as never having been filed. As a result, we are using the recent Southwestern bond as replacement for the Martin Marietta bond.

Reclamation Performance Bond - Utah
American Casualty Company of
Reading, Pennsylvania
Bond 702 53 94

Dear Ms. Rasmussen:

This is in follow up to your recent telephone discussion with Lynn Findlay regarding use of the above referenced bond to cover the mining and reclamation operations located on National Forest System lands near Leamington, Utah.

The above bond, was submitted to us as a replacement for Federal Insurance Company Bond No. . And, you asked that we return Bond 8068-1000 to you. As Mr. Findlay explained, we have no recollection or record of having received Bond 8068-1000. The only bond we currently have in effect for the Leamington operation is Bond on behalf of Martin Marietta Corporation.

In an attempt to locate Bond , we talked with Mr. Bob Watkins of Rebsamen Insurance, Little Rock, Arkansas. He further checked with the Federal Insurance Company people who, after assessing the situation, concluded that they are considering the bond as never having been filed. From that we are considering the bond as nonexistent.

In regard to Bond _____ we find it to be acceptable and will work with the State of Utah, Division of Oil, Gas, and Mining in putting it into effect as the replacement for the Martin Marietta bond.

Please contact Mr. Findlay if there are further questions. Our telephone number is 896-4491.

Sincerely,

Ronald K. Jew-
